PROFESSIONAL SUMMARY

Results-driven Power BI Developer with 2+ years of dedicated Business Intelligence experience and a 10-year foundation in enterprise data analytics and operations. Expertise in building scalable data models, writing complex DAX measures, and engineering automated ETL pipelines using Power Query and SQL. Adept at transforming complex datasets into high-impact, real-time dashboards that drive strategic decision-making and reduce enterprise reporting turnaround time by up to 40%.

TECHNICAL SKILLS

- **Core BI Skills:** Power BI (Desktop & Service), DAX, Power Query (M), Data Modeling (Star Schema), ETL Processes, Row-Level Security (RLS), Dashboard Optimization, Dataflows, DAX Studio.
- **Database & Querying:** Advanced SQL (CTEs, Window Functions, Joins, Aggregations), Relational Databases (SQL Server, SQLite), Data Extraction, Data Transformation.
- **Analytics & Automation:** Advanced Excel (Power Pivot, Macros), Google Apps Script, Workflow Automation, Power Automate, MIS Reporting.

KEY ACHIEVEMENTS

- **Workflow Automation:** Reduced manual data entry dependencies for 5+ operational teams by engineering automated ETL pipelines spanning the entire order lifecycle.
- **Process Automation:** Slashed follow-up communication delays by 100% by deploying intelligent email notification systems mapped to customer and department data.
- **Reporting Optimization:** Reduced enterprise reporting turnaround time by 40% and eliminated data silos by developing scalable KPI tracking solutions for senior management.

KEY PROJECTS

- **Sales Performance Dashboard:** Designed an end-to-end dashboard utilizing advanced DAX for Revenue Analysis, Target vs Achievement, and Agent Performance Monitoring.
- **Call Center Operations Dashboard:** Built a robust Star Schema data model to integrate call volume analysis, productivity tracking, and agent attendance metrics into a unified insights panel.
- **SEO Analytics Dashboard:** Designed a comprehensive data integration model tracking keyword rankings, organic traffic, and search visibility across multiple platforms.
- **Automated Production Tracking Dashboard:** Engineered automated ETL processes covering Pre-Alert to Order Handover stages, delivering real-time execution monitoring across 5+ cross-functional teams.

WORK EXPERIENCE

Data Analyst (Automation & BI) | *Magnum Clothing Pvt Ltd* | Chennai

2025 – 2026

- Engineered automated ETL processes and reporting workflows covering Pre-Alert to Order Handover stages.
- Developed automated production tracking dashboards using Google Sheets and Apps Script, delivering real-time execution monitoring across cross-functional teams.

- Designed and deployed 15+ high-performance Power BI dashboards utilizing advanced DAX and Power Query, empowering senior management with real-time operational visibility.
- Built scalable ETL processes that consolidated disparate data from SQL databases, Excel, and CSVs into unified Star Schema data models.

- Built complex data models and reporting structures using Power Query and Power Pivot, bridging the gap between raw supply chain data and actionable analytics.
- Automated weekly and monthly CEO review presentations by analyzing inventory turnover and fulfillment cycles across multiple hubs.

EARLY CAREER

- Aggregated daily sales, production, and shipping data to prepare monthly budget and performance reports for C-level executives.
- Managed customer databases and designed dashboard reports to track MIS vs. backend software discrepancies.

- Prepared sales projection and achievement reports and managed customer database and campaign reporting.
- Cross-verified billing software reports with MIS data to ensure data accuracy and consistency.

- Processed ERP order entries, stock allocation, invoicing, reconciliation, and dispatch documentation.
- Managed inventory tracking, fulfillment communications, and inward/outward shipping across delivery hubs.

CERTIFICATIONS

- **Microsoft PL-300 Certification (In Progress):** Actively completing Microsoft Learn pathways for Data Analyst Associate credential.
- **AI Tools Workshop Certification:** 10X Learning (AI capabilities and automation in data analytics).
- **Advanced Excel 365 & Power Query Mastery:** Developer Functions & Macros.

EDUCATION

- **Diploma in Electronics & Communication Engineering** | Apollo Polytechnic College, Chennai (2009 – 2012)
