PROFESSIONAL SUMMARY

Results-driven Power BI Developer with 2+ years of dedicated Business Intelligence experience and a 10-year foundation in enterprise data analytics and operations. Expertise in building scalable data models, writing complex DAX measures, and engineering automated ETL pipelines using Power Query and SQL. Adept at transforming complex datasets into high-impact, real-time dashboards that drive strategic decision-making and reduce enterprise reporting turnaround time by up to 40%.

TECHNICAL SKILLS

- **Core BI Skills:** Power BI (Desktop & Service), DAX, Power Query (M), Data Modeling (Star Schema), ETL Processes, Row-Level Security (RLS), Dashboard Optimization, Dataflows, DAX Studio.
- **Database & Querying:** Advanced SQL (CTEs, Window Functions, Joins, Aggregations), Relational Databases (SQL Server, SQLite), Data Extraction, Data Transformation.
- **Analytics & Automation:** Advanced Excel (Power Pivot, Macros), Google Apps Script, Workflow Automation, Power Automate, MIS Reporting.

WORK EXPERIENCE

Data Analyst (Automation & BI) | *Magnum Clothing Pvt Ltd* | Chennai 2025 – 2026

- Engineered automated ETL pipelines and reporting workflows covering Pre-Alert to Order Handover stages, reducing manual data entry dependencies for 5+ operational teams.
- Developed automated production tracking dashboards using Google Sheets and Apps Script, delivering real-time execution monitoring across cross-functional teams.
- Deployed intelligent email notification systems mapped to customer and department data, slashing follow-up communication delays by 100%.

Power BI Developer | *Enterstellar Softwares Pvt Ltd* | Chennai 2024 – 2025

- Architected and deployed 15+ high-performance Power BI dashboards utilizing advanced DAX and Power Query, empowering senior management with real-time operational visibility.
- Built scalable ETL pipelines that consolidated disparate data from SQL databases, Excel, and CSVs into unified Star Schema data models.
- Eliminated data silos by developing scalable KPI tracking solutions, directly improving reporting accuracy and enabling faster executive decision-making.

Senior MIS – Supply Chain Analyst | *Caratlane Trading Pvt Ltd* | Chennai 2022 – 2024

- Built complex data models and reporting structures using Power Query and Power Pivot, successfully bridging the gap between raw supply chain data and actionable analytics.
- Automated the processing of weekly and monthly CEO review presentations by analyzing inventory turnover and fulfillment cycles across multiple hubs.
- Wrote optimized SQL queries to extract, transform, and validate multi-department physical stock data, ensuring 100% reconciliation accuracy in ERP systems.

Sales Data Analyst | *Lifecell International & Lookman Electroplast* | Chennai 2021 – 2022

- Aggregated and analyzed daily sales, production, and shipping data to prepare monthly budget and performance target reports for C-level executives.
- Managed large-scale customer databases and designed dashboard reports to track daily MIS vs. backend software discrepancies.

KEY PROJECTS

- **Enterprise Power BI KPI Dashboard Suite:** Architected an end-to-end sales and operations dashboard utilizing advanced DAX for time-intelligence calculations. Built a robust Star Schema data model and implemented Row-Level Security (RLS) to ensure data privacy and targeted insights across regional managers.
- **Multi-Dept Data Integration Pipeline:** Designed a comprehensive data integration model combining production, order, and workflow data. Transformed raw cross-functional data into a unified insights panel, significantly reducing enterprise reporting turnaround time by 40% and eliminating team dependencies.

EDUCATION & CERTIFICATIONS

- **Advanced Excel 365 & Power Query Mastery** | Developer Functions & Macros
- **Diploma in Electronics & Communication Engineering** | Apollo Polytechnic College, Chennai (2009 – 2012)
